Group members. Since 1968, over 100 students have been awarded masters or doctoral degrees under Galen Stucky's supervision or co-supervision; they subsequently chose a variety of career paths: over 35 in academic teaching/research/administration, with others initiating startup companies, holding research positions in national laboratories and in industry, or practicing law. Of his postdoctoral associates, over three dozen were or are on the faculties of universities in the U.S., China, Taiwan, Korea, and elsewhere. In recent years, numerous UCSB undergraduate students and visiting undergraduates have participated in the group's research activities. A partial list of former group members is maintained at labs.chem.ucsb.edu/stucky/galen/stuckygroup/Past.html.
